

'Why Should Anyone be Led by You?'

Aug 26&27 Brisbane

Accreditation Option:

Aug 28&29 Brisbane

AIM Queensland and **BlessingWhite** are co-hosting the opportunity for leaders to learn how to lead better through inspiring others to contribute beyond their own expectations. The learning process starts with on-line feedback from up to 10 current or past followers. At the workshop itself the leaders will practice making their case as to why their team should be led by them. The various planning tools will be available in-line to these leaders after the action planning workshop.

The 'Why Should....?' process is a high level one. Much of the time is spent in peer coaching helping each participant practice making their case to lead. Hence only participants who are actually leading can enrol. (We will consider HR professionals who would like an opportunity to experience the process with a view of introducing it into their organisation.) See www.whysouldanyonebeledbyyou.com for more information
